## Culture-Free Self-Esteem Inventories

**Second Edition**

**James Battle**

*Culture-Free Self-Esteem Inventories, Second Edition* (CFSEI-2), is a series of self-report scales used to determine the level of self-esteem in children and adults. The CFSEI-2 measures children's self-esteem in five areas: general, peers, school, parents, and lie (defensiveness) scales. Four areas for adults are measured: general, social, personal, and lie scales. CFSEI-2 results clearly show the relationship of self-esteem to proper academic, behavioral-social, and emotional functioning.

*Complete CFSEI-2 Kit includes Examiner's Manual, 50 Forms A, 50 Forms B, 50 Forms AD, Scoring Acetate, and Administration Audiocassette. (1992)*

## Self-Esteem Index

**Linda Brown and Jacquelyn Alexander**

The *Self-Esteem Index* (SEI) is a new, multidimensional, norm-referenced measure of the way that individuals from the ages of 7-0 through 18-11 years perceive and value themselves. The SEI can be administered to individuals or groups in approximately 30 minutes. The self-report format requires subjects to read the SEI items and then to classify each item on a Likert-type scale as Always True, Usually True, Usually False, or Always False.

*Complete SEI Kit includes Examiner's Manual, 50 Student Response Booklets, and 50 Profile and Record Forms, all in a sturdy storage box. (1991)*

*#0905 SEI Complete Kit.....$104.00*
*#0906 SEI Examiner's Manual.....39.00*
*#0907 SEI Student Response Booklets (50).....34.00*
*#0908 SEI Profile and Record Forms (50).....34.00*
